

LEVEL- 3 EXAM

NAME: K. ANJALI GIRI

REG NO: 192421037

1. Create a list of all numbers in a range which are perfect squares and the sum of the digit of the number or less than 10

CODE

```
import java.util.*;

public class Main {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        int a = sc.nextInt();
        int b = sc.nextInt();

        for (int i = a; i <= b; i++) {

            int r = (int) Math.sqrt(i);

            if (r * r == i) {

                int n = i, sum = 0;

                while (n > 0) {

                    sum += n % 10;

                    n /= 10;

                }

                if (sum < 10)

                    System.out.print(i + " ");

            }

        }

    }

}
```

Sample Input

1 49

Sample Output

1 4 9 16 25 36 49

2. To withdraw an amount after checking balance(Minimum balance must be Rs.500.00)

Note : Assume that balance amount = 10000

Test Cases

1. 100, Raja, S, 8000
2. Raja, 100, S, 9000
3. 101, Rani, S, 12000
4. 102, Ragu, W, 8000
5. 103, Ravi, C, 10000

CODE

```
import java.util.*;

class Main {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        int acc = sc.nextInt();

        String name = sc.next();

        String type = sc.next();

        double withdraw = sc.nextDouble();

        double balance = 10000;

        if (balance - withdraw >= 500)

            balance = balance - withdraw;

        else

            System.out.println("Withdrawal not possible");

        System.out.println("Account Number: " + acc);

        System.out.println("Name: " + name);
```

```
        System.out.println("Account Type: " + type);
        System.out.println("Balance: " + balance);
    }
}
```

Sample Input

100 Raja S 8000

Sample Output

Account Number: 100

Name: Raja

Account Type: S

Balance: 2000.0
